

COMPUTER NETWORKING TECHNOLOGY INDUSTRY CERTIFICATION (M0849)

Technology and Health Division

Certificate M0849

This certificate covers the material necessary to successfully pass the CompTIA A+, Network+, Security+, and the Server+ professional certificates. These preparation courses provide the necessary information for those seeking to obtain professional industry CompTIA certificates. Topics include instruction and hands on material that supports the exam objectives as set forth by CompTIA. This Industry Certifications certificate will prepare students with the requisite knowledge for subsequent computer networking technology certificates and degrees. These courses are typically taken near the end of a student's coursework and help to validate the knowledge and skills they have obtained from earlier courses which have extensive hands on lab components.

Required Courses

Course Prefix	Course Name	Units
CNET 60	A+ Certification Preparation	2
CNET 62	Network+ Certification Preparation	2
