

CIS PROFESSIONAL IN WEB PROGRAMMING (CERTIFICATE M0812)

Business Division

Certificate M0812

The CIS Professional Certificate in Web Programming provides students the programming skills to create effective web pages and web sites.

The certificate offers a balanced set of classes that prepares students to design, debug and implement both client-side and server-side web programs. Emphasis is placed on acquiring programming skills in various web programming, scripting or markup languages such as JavaScript, HTML, DHTML, XHTML, XML, CSS, ASP.NET, AJAX, SQL and Perl. Students will also learn to configure and install an Apache web server in a Linux or Windows system and access a MySQL database using PHP programs. Opportunities available after the completion of this certificate include web programming or web and database server administration.

Required Courses

Course Prefix	Course Name	Units
CISW 17	HTML, CSS, and JavaScript Programming	3
CISW 31	Secure Web Server Programming in PHP	3
