

PHLEBOTOMY TECHNICIAN

Certificate of Completion

This short-term program is intended to prepare students to become a phlebotomy technician in a health care setting. This program is specifically for noncredit students who are seeking training as a phlebotomy technician for immediate entry-level employment. Furthermore, this program will also provide preparation for California state licensure as a Certified Phlebotomy Technician 1 (CPT1). Students must pass all courses to earn a Phlebotomy Technician program certificate.

Program Learning Outcomes

- Students will demonstrate job readiness.
- Students will be employed or seek employment in the field for a related field.
- Students will demonstrate safe and effective technical skills relative to the phlebotomy technician scope of practice.

Review Student Learning Outcomes (SLOs) (<https://www.mtsac.edu/slo/>) for this program.
